

INTERIOR WALL PROTECTION

From the transport and setup of manufactured homes to the general longevity of your homes interior and exterior walls, Thermo-Brace® Interior Board provides the necessary protection to keep your drywall intact. Before adding drywall, easily install Interior Board as another layer between your drywall and studs using glue and fasteners. Interior Board is composed of a long-fibered panel with a poly barrier on both sides, providing superior moisture control and stability inside your walls.

SPECIAL FEATURES

- Lighter and easier to handle, cut, and install
- Reduces drywall cracking
- Adds to wall strength
- Extra support for cabinetry installation
- Stable pricing
- No formaldehyde
- Custom heights & widths
- Glueable
- Made in the USA

A simple addition with proven benefits. For more information about Barricade’s extensive line of flashing tapes, house wraps, and underlayment materials, contact your Barricade sales representative today!
