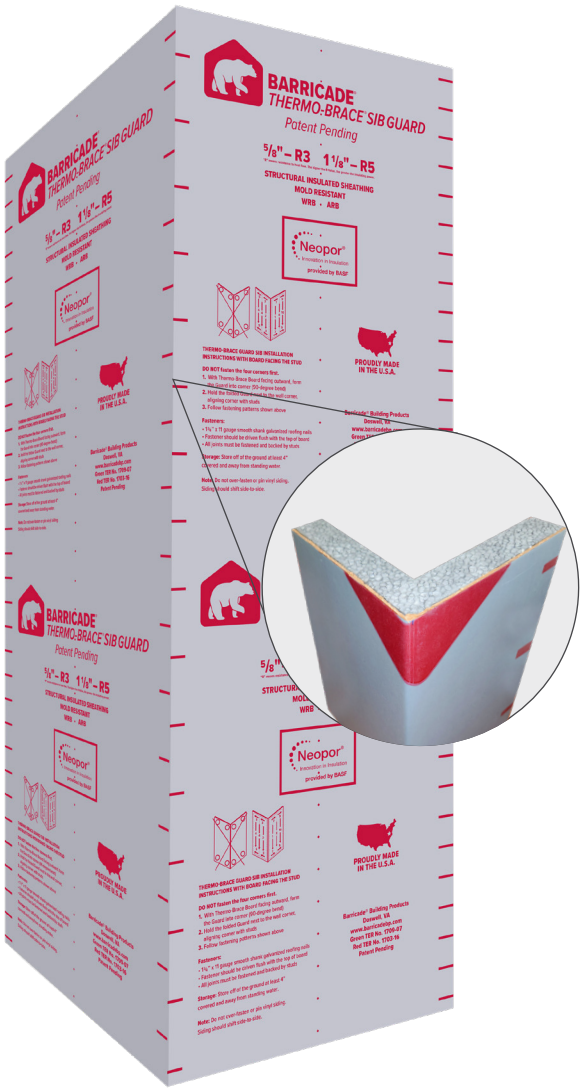
BARRICADE® THERMO-BRACE® SIB GUARD

Patent Pending



INTRODUCING THERMO-BRACE® SIB GUARD

Patent-pending Barricade Thermo-Brace SIB GUARD is an energy-efficient, structural sheathing that wraps around the corner of a structure, creating a complete enclosure that joins two separate walls into one continuous unit, while providing structural, weather resistant, air barrier and continuous insulation benefits. Thermo-Brace GUARD stops air leaks and moisture penetration at corners and eliminates the need for corner flashing, saving time and money for builders, architects, contractors, and homeowners.

SPECIAL FEATURES

- Only Wrappable Structural Panel with Rigid Foam Insulation
- Replaces need to flash corners
- Provides Continuous Insulation
- Stops air leaks and moisture penetration at corners
- Easy install with nail markings labeled on panel
- Easier installation of windows, siding and flashing
- Maintains a better thermal break over the studs
- Hinge feature on panel allowing easy installation around the corner
- 32” Wings on each side to hit two studs
- Lays Flat during shipment
- Available in R3 and R5 Continuous Insulation
