

SBS WINDOW & DOOR FLASHING TAPE

Barricade® Building Products, the industry leader in pressure-sensitive adhesive technology, is proud to offer Barricade® Flash Right™ window and door flashing tape. Barricade Flash Right is a high-performance, asphalt-based window and door flashing membrane designed to provide a permanent weather-tight seal to protect from moisture, leaks and air penetration when properly installed.

SPECIAL FEATURES

- Tough, durable facer
- UV-resistant backing withstands degradation for up to 3 months of exposure.
- Easy to install — recommended use of hand roller to provide uniform pressure during installation
- Easy to remove release liner
- Works best with **Barricade® Construction Sealant™***
- Improves energy efficiency by providing a barrier to air infiltration
- Meets key standards AAMA 711 & AC148

For use on windows & doors, cornerboard abutments, sidewall sheathing seams, and deck-to-wall joints. For more information about Barricade's extensive line of flashing tapes, building wraps, and underlayment materials, contact your Barricade sales representative today!

The use of the Barricade Construction Sealant is recommended. 100% polyurethane sealant should be used with Barricade Flash Right. Use of a silicone or other type of sealant can have compatibility issues with bitumen/asphalt based adhesive systems.

Performance is not guaranteed when using EPDM or Flexible (Plasticized) Polyvinyl Chloride (PVC) based membranes.

Adhesion must be checked on substrates with surface variability, such as OSB, CMU, concrete and other building substrates. Due to the surface variability the use of a primer may be required.

SPECIFICATIONS

Composition	Sizes	Rolls/Case	Total Thickness	Application Temperature Range	Tensile Strength	Nail Sealability	Shelf Life	UV Exposure Rating	Warranty
White polyolefin-face using SBS asphalt adhesive	4" x 75'	9	20 mils	40°F-160°F	ASTM D412	Pass	12 months	3 months	20-Year Limited System
	6" x 75'	6							
	9" x 75'	4							
	12" x 75'	3							
	18" x 75'	2
