

A SUPERIOR FLASHING SYSTEM

Barricade® Flash Conform™ offers outstanding moisture protection and provides the ultimate line of defense around windows and doors. When installed according to specifications shown in the flashing system installation guide, Barricade Flash Conform provides a superior weatherproof seal for all window, door, and skylight installations.

BENEFITS

- Seals easily around radii and corners because of its stretchability
- Butyl-rubber sealant provides maximum protection from water intrusion
- Outstanding adhesion to wood and steel surfaces
- Aggressive, slower acting adhesive allows repositioning during installation
- Easy release paper backing
- Free of asphalts, VOCs, and solvents
- Backed by a 20-year limited warranty

CROSS SECTION OF A WALL

INCORPORATE FLASHING AS PART OF AN OVERALL DRAINAGE PLANE TO CONTROL THE DIRECTIONAL FLOW OF WATER AND MOISTURE.

Studies show that inadequate design and construction of flashings are responsible for a high percentage of window and door leaks. Poor design detail is one of the most common causes of building envelope defects and builder callbacks. When installed properly, the Barricade Flash system can intercept and direct the flow of water to designed drainage paths to prevent water from penetrating the building. Both Barricade Flash Conform and Barricade Flash Ulti have self-sealing properties that can stop leaks around fasteners that may later be driven through the adhesive.

SPECIFICATIONS Test Method D3330 F

Applicable Standards	Roll Length	Standard Roll Widths	Overall Thickness	Tensile Strength	Water Vapor Transmission Rate	Warranty
AAMA 711 Compliant	75'	6" 8" 9"	50 mils	> 400 psi	< 0.2 g/100in ² /24hrs	20-Year System Warranty
